Annual Report 2019

WE PROVIDE HUMANITARIAN AID AND DEVELOPMENT ASSISTANCE

We are present where help is needed the most. We help around the world. We work in places where humanitarian crises – natural disasters and armed conflicts – occur. Immediate humanitarian response to a crisis is our priority, but equally important is seeking long-term solutions and preventing future catastrophes.

WE EDUCATE SOCIETY

We conduct various social and educational campaigns addressed to the Polish society. We inform about the needs of the people in the countries in which we operate. We emphasize global needs and human rights, such as access to water, food, safe shelter and sanitary facilities. We encourage Polish society to actively support humanitarian causes.

Dear Friends,

The deepening crisis in Yemen, thousands of people fleeing Venezuela after the economic collapse, military intervention in north-eastern Syria – estimated 132 million people worldwide needed humanitarian assistance in 2019. Polish Humanitarian Action (PAH) was determined to provide aid to those who needed it most.

Thanks to our donors, partners and employees, we were able to help 777,936 people on four continents.

The conflict in Yemen has been described as the world's worst humanitarian crisis – 80 percent of the population requires humanitarian aid. Our field mission in Yemen was officially established in July 2019 in the city of Aden. Its main focus has been providing assistance in the sector that we know especially well, i.e. water and sanitation. Our activities have helped to prevent the spread of infectious diseases in the overcrowded city to which Yemenis have been fleeing from other parts of the war-torn country. Our work in Yemen

was made possible thanks to, in large part, the generous contribution of Polish society that helped us gather the necessary resources to provide indispensable aid.

In South Sudan we expanded the projects related to education. This is a very important sector of our work because about 2.4 million children do not attend school there. We also introduced a program of assistance and psychosocial support for women who, due to humanitarian crisis, have experienced gender-based violence.

In Somalia we paid particular attention to activities addressing climate change issues (DRR). That's how we support local communities in their preparations for future natural disasters, which are on the rise in this part of Africa due to the climate crisis. We also strengthened our position as the water and sanitation expert in the region.

In October when thousands of families were fleeing the military offensive in north-eastern Syria, we reacted immediately. We adapted

an abandoned camp for internally displaced persons in Iraqi Kurdistan and prepared it for the arrival of Syrian refugees. Again we were moved by the mobilization of Polish society – Poles did not ignore the plight of the civilian population in Syria and Iraq.

The world has forgotten about the conflict in eastern Ukraine, but PAH is still helping on the ground. There are 3.4 million people living there, and almost half of them are seniors over 65 years old, they are mostly single or widowed and often chronically ill women. Our work focused mainly on the psychosocial and psychological support for the local community. In the situation of protracted conflict, caring about mental health is particularly important, because it affects not only the quality of life but also the ability to survive and look after oneself in the vicinity of war.

We also continued our projects in Poland – the program of meals for children "Pajacyk", educational activities for schools implemented throughout the country, and social campaigns raising the Polish people's awareness of humanitarian crises and aid.

In everything we do, we always put the people in urgent need of support first. But our assistance would not be possible without the Polish and international staff, as well as, the members of Polish society, who together with us, do not turn a blind eye to the needs of another person.

We are immensely grateful to everyone for their support: our donors, institutional and business partners, activists and volunteers. All the people who always respond to our appeals for help to those in need. Thank you! Together we can do more!

IMPLEMENTATION OF THE ORGANIZATIONAL STRATEGY

LONG TERM COMMITMENTS:

Broaden the scope of humanitarian and development aid provided abroad

IMPLEMENTED IN 2019:

- PAH activities in Somalia were expanded to include the disaster risk reduction and nutrition components.
- In South Sudan, new activities included the water and sanitation components in schools and construction of temporary learning spaces. PAH mission in South Sudan continued to broaden its activities in the protection sector, including psychosocial assistance. PAH team also joined the group monitoring prices in the country as a part of developing activities based on cooperation with the local market.
- The permanent PAH mission was established in Yemen and it implemented first projects related to water and sanitation as well as medical assistance.
- PAH activities in Ukraine, in addition to the continuation of programs in the field of psychological, water and sanitation, as well as financial assistance, focused also on creation of child-friendly spaces.
- In Kenya, PAH expanded its activities related to disaster risk reduction and development aid.
- In Iraq, a representative of the PAH team became the co-coordinator of the water and sanitation cluster in the Nineveh province.
- PAH emergency response team carried out aid activities for the Venezuelan refugees in Colombia.

Consolidate the financial situation: diversify revenue sources and improve reporting system

- The fall in revenue from statutory activities in 2019 by 25.8 million PLN (31.3%) compared to 2018 was mainly due to the decrease in the value of in-kind donations by 30 million PLN. Adjusted for the revenue from in-kind donations, the Foundation's revenue from statutory activities increased by 4.1 million PLN.
- The donations received from Polish society were at the level similar to that of 2018.
- The improvement of the Foundation's net financial result in 2019 compared to 2018 by 961,000 PLN.
- The CRM system's development to improve the management of data about the funds raised from donations, and implementation of the integrated ClickDimensions tool to enable more effective external communication.
- The implementation work on electronic workflow covering procurement and accounting processes.

In 2019 we
provided aid
to 178,332 people

- PAH present since 2006.
- WE OPERATE IN THE STATES: Central Equatoria, Eastern Equatoria, Jonglei, Unity, Wau, Western Bahr el Ghazal.

In South Sudan, we operate in many regions, providing assistance with the access to water, food, education, shelter and protection. Thanks to the cross-sectoral approach, our activities are more effective and our assistance also becomes more long-term oriented. With children in mind, in 2019 we expanded our educational programs, the construction of latrines and water points in schools, we also established temporary learning spaces in the areas where the access to school infrastructure was limited. In all our projects, we widened the range of assistance available to those most in need. Additionally, we included special support measures for women experiencing gender-based violence, and we also improved access to psychosocial services – because psychological assistance is crucial in the treatment of post-traumatic stress, which is a frequent consequence of violence.

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Emergency water and sanitation (WASH) aid, shelter and non-food items, integrated protection preparedness and response for vulnerable and crisis-affected communities	73,129 PEOPLE incl. 37,054 women and girls	all states	ECHO, RRF, SSHF, individual donors
Provision of fishing kits, vegetable and cereal crops kits, watering cans and extension training to stabilize the livelihoods of returnees, internally displaced persons and host community through food security and livelihood activities	24,000 PEOPLE incl. 2,937 women and 8,948 girls	Wau and Western Bahr el Ghazal states	UNOCHA

We provided essential water and sanitation services, e.g. we repaired a borehole so that a local community could have access to clean water. We provided hygiene kits, necessary non-food items, and conducted hygiene trainings. Throughout the project, protection was mainstreamed across all activities. In Central Equatoria state we trained borehole mechanics, hygiene promoters, and water committee members. We equipped local institutions with hand-washing stations and soap.

We distributed cereal crop seeds and agricultural tools. We conducted training sessions on good agronomic practices. We provided vegetable growing and fishing kits. We conducted training on more efficient fishing practices.

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Providing better access to life-saving non-food items and safe emergency shelter to returnees, internally displaced persons, and vulnerable host communities through improving resilience and positive coping mechanisms	40,454 PEOPLE incl. 15,411 women	Bor and Jonglei states	UNOCHA
	We distributed essential non-food items and shelter-building materials to people most affected by the crisis. We conducted workshops on shelter building as well as proper care and use of shelters and non-food items. We prepared and distributed commodity vouchers. We conducted protection monitoring as part of protection mainstreaming in all our activities.		
Improvement of water and sanitation services for internally displaced persons, returnees, and vulnerable host communities at risk of WASH-related gender based violence and malnutrition; mobile response where water and sanitary emergencies might arise	16,561 PEOPLE incl. 5,467 women and 3,327 girls	Bor and Jonglei states	UNOCHA
	We repaired water points. We provided solar lamps to households to reduce WASH-related gender based violence. We improved sanitation facilities (latrines and hand washing stations). We conducted activities promoting personal and household hygiene (washing vegetables/fruits in clean water, etc.).		
Improving access to inclusive education, enhancing learning quality and strengthening community capacity to support learning outcomes of children affected by emergencies through provision of WASH infrastructure in schools and trainings to prevent waterborne diseases and Ebola virus disease	1,061 PEOPLE incl. 33 women and 446 girls	Central Equatoria and Unity states	UNOCHA
	We installed or repaired hand washing facilities. We constructed or repaired water points with water quality testing and monitoring (including rainwater harvesting system). We trained water committees and pump mechanics. We established school health clubs, and provided training for teachers and schools authorities. We built or repaired school latrines. We provided training sessions to community members about health, nutrition, handling of food, personal protection, water and sanitary hygiene.		

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Improving access to life-saving WASH services and non-food items to flood affected populations through integrated multisector and mobile response	Project began on December 15th, 2019. The number of beneficiaries will be included in the Annual Report 2020.	Jonglei state	UNOCHA
	We distributed water and sanitary kits for local communities. We repaired sanitation facilities in local institutions and public places. We repaired and conducted chlorination of water points. We recruited and trained pump mechanics. We conducted hygiene promotion activities (personal and living environment hygiene, safe water chain, etc.). We distributed essential non-food items and emergency shelter materials to the most vulnerable people.		
Coordination of water and sanitation activities (WASH) for effective and timely delivery of services to the most vulnerable population	Project financed the position of the WASH cluster coordinator.	Jonglei state	UNICEF, individual donors
	Local PAH employee - a specialist in providing aid in water, sanitation and hygiene sector - was appointed a co-coordinator of the WASH cluster in the Jonglei region. This regional WASH cluster is a part of the United Nations coordination mechanism aimed at increasing effectiveness and cooperation between the entities providing aid in the region.		
Borehole drilling financed by individual and corporate donors	22,602 PEOPLE incl. 6,444 women	Jonglei state	individual donors, 1% income tax return, Zygmunt Mandela, Dornwell, #BiegamDobrze charity runners, town of Jaworzno, Electrolux Poland Sp. z o.o.
	We constructed 6 boreholes.		
Green Belt Academy WASH Electrolux	525 people (incl. 200 women)	Bor and Jonglei states	Electrolux Poland Sp. z o.o.
	We constructed three blocks of gender appropriate latrines. We established or retrained school health clubs, we conducted trainings for teachers and school authorities. We improved living conditions at girls' dormitories. We installed rainwater harvesting system.		

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Stabilizing the source of income for the most vulnerable communities through food security and livelihood response	The number of beneficiaries was reported in the Annual Report 2018 (aid was provided to 63,309 people); in 2019 we conducted more training sessions in the same communities.	Wau and Western Bahr el Ghazal states	GIZ
	We conducted training on good agronomic practices, irrigation system for vegetable production, and fishing. We conducted training on cleaning of water jerry cans and hygiene promotion campaign. We distributed soap vouchers for families at risk of malnutrition. We conducted workshops on good nutrition for individuals, local communities, and institutions.

Awar lives with her husband and child in Kolmarek village. The lack of well in the village meant that every day Awar had to carry water from places located a few hours away from her house. She was afraid of these walks: she was vulnerable to attacks, and bringing water took up most of her time. Often, out of necessity, she had to draw water from, for example, the puddles remaining after floods. "It wasn't good water, it was dirty," recalls Awar, "but we drank it, because there was no alternative. That dirty water made us all sick; due to the parasites I had stomach pains and bleedings, and also skin problems. "When PAH built a well in the village, the lives of Awar and other women, as well as their families, changed dramatically. "I don't have to walk for hours for water anymore, the well is very close to our house. I use water to irrigate my crops, to wash, to do laundry. And most importantly, the water we now drink is clean and safe!"

In 2019 we
provided aid
to 289,346 people

- PAH in Somalia since 2011.
- WE OPERATE IN THE REGIONS:
Galgaduud, Middle Shabelle, Banaadir.

Over the past year in Somalia, we focused on the activities addressing the worsening climate crisis problem and providing access to water. Among the initiatives we expanded, there were disaster risk reduction (DRR) projects aimed at improving the ability of local communities to cope with the effects of more frequent natural disasters, such as droughts and floods. In recognition of our work to date in Somalia, PAH was named the national co-coordinator of the water and sanitation cluster (WASH). That enabled us to apply our expertise and competence not only to our further activities in the country, but also to the national aid coordination in this area.

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Humanitarian response for internally displaced persons, host communities and villages affected by floods, drought and conflicts	131,132 PEOPLE incl. 69,500 women and girls	Galgaduud region	ARCHE NOVA
Integrated emergency WASH and multi-purpose cash response to the most vulnerable families	62,862 PEOPLE incl. 42,117 women and girls	Banaadir and Middle Shabelle regions	ECHO, MEBLIK SP. Z O.O., Polish MFA

We repaired 7, important to local communities, shallow wells. We hired local people via cash for work program to build a water catchment. We built 3 water tanks in local schools and trained water committee members. We built or repaired 20 sanitary facilities and water stations in 4 schools. We established hygiene clubs in 3 schools. We trained hygiene promoters who conducted sessions in camps for internally displaced persons - they reached over 54,000 people. In drought affected areas, we distributed essential non-food and hygiene items. We repaired 40 latrines destroyed by floods. In response to an outbreak of cholera in December 2019, we provided hygiene kits to people treated in hospitals (mainly children under 5 years old). We produced radio broadcasts informing people in remote locations about the importance of hygiene and health consequences of floods.

We provided water to 39 camps for internally displaced persons. We built 180 new latrines in camps. We provided water tanks to villages affected by the drought. 400 people received cash transfers.

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Building resilience through comprehensive access to WASH services in selected schools, health centres and communities	67,708 PEOPLE incl. 52,983 women and girls	Banaadir region	UNICEF, CARITAS POLSKA, NOXAN, individual donors, 1% income tax returns, collection for water in December 2019
	We built or repaired water stations in 5 schools and water tanks in schools and health facilities. We built and serviced latrines in schools and health facilities. We provided tools and spare parts to operators trained in maintenance and repair of water sources. We trained community hygiene promoters and students promoting hygiene in their schools. Teenage girls participated in menstrual hygiene workshop and received menstrual kits.		
Providing sustainable and flood resistant access to safe water, sanitation and hygiene services to vulnerable community	26,600 PEOPLE incl. 13,780 women and girls	Middle Shabelle region	UNOCHA
	We constructed 24 shallow wells and 266 communal latrines, we provided necessary tools and spare parts for maintenance. We conducted hygiene promotion and distribution of 302 hygiene kits. We trained 83 water and sanitation committees.		
Provision of life-saving emergency WASH assistance to flood-affected communities	744 PEOPLE incl. 416 women and girls	Middle Shabelle region	UNOCHA
	We conducted hygiene and sanitation promotion activities - how to wash hands, treat water, and protect environment - through house-to-house demonstrations.		
Nutrition program - Targeted Supplementary Feeding Program (TSFP)	300 PEOPLE incl. 150 children under 5 years old, 150 pregnant and breast feeding women	Middle Shabelle region	MEBLIK SP. Z O.O.
	We conducted distribution of dry foods (maize, sugar, oil, etc.) and supplements for malnourished people (Plumpy'Sups).		

Photo: PAH

Afifa Abdi Hasaan comes from the Lower Shabelle region. Like hundreds of thousands of Somali men and women, Afifa had to leave her home because of the drought that deprived the entire area of water. "I need water to live. I need it for cooking, drinking, bathing, washing clothes, and keeping my surroundings clean. Sometimes I need it for my guests. Without water, there is no life," explains Afifa, who together with her family found refuge in the camp for internally displaced people in Deynelle. There PAH provides the access to water, repairs wells, and builds latrines. "If there was no water in the camp, our life would become very hard," says Afifa. "People would start leaving to look for a safe place again. They would run away from the poor sanitary conditions and the spread of dangerous diseases caused by very high temperatures and the lack of water. I couldn't live without water, because the first thing you need when you get up in the morning is water. Water is life!"

In 2019 we
provided aid
to 43,044 people

- PAH in Iraq since 2016.
- WE OPERATE IN THE PROVINCES:
Nineveh, Erbil, Duhok, Sulaymaniyah.

In 2019, we expanded our water and sanitation assistance program (WASH). We made numerous repairs of the water and sanitation infrastructure, conducted hygiene trainings, and improved access to water in schools. Our activities were primarily concentrated in the province of Nineveh, and especially in the city of Mosul, where we quickly became one of the leading organizations working in the rehabilitation of water systems. This was additionally recognized by the appointment of one of the PAH employees as the co-coordinator of the water and sanitation cluster in Nineveh province, which allowed us to share our expertise and competences with other entities in the region.

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Supporting resilience of internally displaced persons, returnees, and host communities; improving access to water and sanitation	26,377 PEOPLE incl. 12,767 women	Nineveh province	EU MADAD, Polish MFA
Emergency assistance and complementary social aid to the most vulnerable people	1,506 PEOPLE incl. 763 women	Erbil, Dohuk and Sulaymaniyah provinces	Polish MFA, individual donors

We conducted repairs of 10 public water and sanitation facilities in newly accessible areas of Iraq and trainings for local NGOs. Project implemented in consortium with EU MADAD, PIN, ACTED, WHH.

We distributed one-time cash assistance, provided legal aid and social support, organized vocational trainings. Project implemented with local partner Mercy Hands.

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Provision of integrated support of water and sanitation infrastructure for Syrian refugees in the Bardarash camp	15,161 PEOPLE incl. 1,690 women	Iraqi Kurdistan, refugee camp Bardarash	Club PAH SOS, individual donors, 1% income tax return, collection for Syria in December 2019
<p>We regularly serviced and repaired existing water network as well as water and sanitation infrastructure (latrines and showers). We conducted water quality tests. We provided maintenance of 4 boreholes.</p>			

Photo: PAH

Fatima is 34 years old and has five children. In 2014, in the district of Zummar, where she lived with her family, the situation became dangerous, so she and her husband decided to flee to Mosul. "It was very hard, we had nothing to eat or drink," Fatima recalls. But the worst was yet to happen. In 2017, Fatima's husband was killed during the bombardment of the city, and she was left alone with her children. Despite the pain and suffering, Fatima did not give up. To earn a living, she worked in several places at the same time. However, the lack of clean water in the neighborhood posed a huge problem for her family. "My children had to carry water from afar, sometimes they would walk a kilometer one way. Close to our house there was only the dirty and stinking river." PAH, in cooperation with the regional water directorate, carried out repairs and upgrades of the water system in the Wadi Hajar district in Mosul. Initially, the project was supposed to end 25 meters from Fatima's house. But when she told our team about her situation, the repaired section was extended. Now Fatima and her children finally have clean and safe water on hand. Thanks to the rehabilitation of the water system completed by PAH, clean water is available in the whole area.

In 2019 we
provided aid
to 175,902 people

- PAH in Syria since 2003.
- WE OPERATE IN THE PROVINCES: Idlib, Aleppo.

In 2019, our priority was to finalize the aid program in the northwestern part of the country. Our activities focused on the water and sanitation sector, and included: educational sessions on maintaining hygiene with small water resources, waste management improvements, water transport, distribution of water tanks, rehabilitation of water and sewerage systems, distribution of hygiene kits. PAH's water and sanitation program was closely connected also with other sectors, such as healthcare, education, protection of the most vulnerable, hence among its results were also: construction of the medical waste incinerator, repairs of school latrines, and construction of toilets accessible to people with disabilities.

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Providing integrated water, sanitation and hygiene humanitarian assistance for the conflict affected people of Syria	12,3085 PEOPLE incl. 62,607 women and girls	Idlib and Halab provinces	NCA
Integrated emergency WASH response to internally displaced persons in camps and informal settlements in north Idlib, considering the needs of disabled persons	52,817 PEOPLE incl. 26,037 women and girls	Idlib province	UNOCHA

We repaired 6 water networks and trained their maintenance staff. We constructed school latrines for disabled students. We provided chlorination infrastructure to all water stations that we maintain. We repaired 4 sewage systems. We provided trash bins and built medical waste incinerators. We conducted regular hygiene workshops in schools and local communities.

We provided safe, chlorinated water for internally displaced people living in camps and informal settlements. We distributed steel water tanks and hygiene kits for displaced families. We built new, concrete latrines and repaired almost 200 existing ones. We built latrines accessible to disabled people living in camps. We removed garbage and provided trash bins.

In 2019 we
provided help
to 11,159 people

- PAH in Ukraine since 2014.
- WE OPERATE IN THE REGIONS: Donetsk and Luhansk.

In 2019, we focused mainly on providing care for the local population through psychosocial support and helping local institutions in creating professional services to assist the residents of the region. We also provided financial aid to those most in need, sanitary assistance in public institutions and support for small-scale agricultural production. The priority of our activities in Eastern Ukraine was helping the most vulnerable groups: seniors, children, disabled people in need of additional care.

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Psychosocial support for children and parents/caregivers	477 TEENAGERS incl. 233 girls and 141 PARENTS/ CAREGIVERS incl. 107 women	Donetsk region	UNICEF
	<p>In cooperation with professional psychologists, we provided psychological support for children and youth as well as their parents or caregivers affected by the armed conflict. As part of the project, we:</p> <ol style="list-style-type: none"> 1. organized psychosocial support sessions (in groups and individual) for children and youth in schools; 2. organized psychosocial support sessions and workshops in positive parenting; 3. organized 3 Community Initiative Teams (CIT) with most active youth and other members of local communities; 4. organized 3 workshops in social mobilization and local community building, project writing and project strategy preparation; 5. awarded small grants to Community Initiative Teams for creation of „Safe Spaces” in project locations (sport activities, festivals, and workshops in soft skills take place there). 		

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Protection and humanitarian assistance to the most vulnerable seniors living along the so-called contact line	4,108 PEOPLE incl. 3,263 women	Donetsk and Luhansk regions	OFDA
	Project consists of 4 main components:		
	<ol style="list-style-type: none"> 1. Psychosocial support (individual and in groups) for seniors and training sessions for social workers, operating social support centres with local seniors; 2. Multipurpose cash assistance (MCA) that allows the most vulnerable people to purchase essential products, psychosocial support sessions for the most vulnerable seniors; 3. Repairs of sanitary infrastructure in institutions providing services for seniors (e.g. Toretsk Territorial Centre of Social Assistance, Neurology Department of the Hospital of Hirske Town, Avdiivka Regional Clinical Anti-Tuberculosis Early Treatment Centre); 4. Support of small-scale agriculture by helping local communities with their home gardens (farming techniques workshops, distribution of seeds and basic tools to plant and grow vegetables and fruits, distribution of vouchers for seeds and tools). 		
Improving access to quality social infrastructure and services for communities affected by the conflict in the Donetsk region	179 PEOPLE incl. 175 women	Donetsk region	Polish MFA
	We conducted training sessions for managers and employees of social care institutions who work with seniors suffering from traumas or depression caused by living close to the front line. From among local social workers and activists, we picked members of Social Initiative Groups who conduct workshops and training sessions in stress management, writing and managing of projects, time management, etc. On the local and regional level we conducted campaigns promoting better access to social services. We also addressed various problems of local communities by organizing so-called round tables with local authorities and activists. As a continuation of the project in Module 2, Social Initiative Groups will receive financial grants to establish Social Centres of Psychosocial Services. Project implemented with local partner Child Smile.		

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Social assistance for internally displaced families and community members residing in the Donetsk region	1,144 PEOPLE incl. 977 women	Donetsk region	Raben – Fundacja Uśmiech i Radość Dziecka, Mercedes-Benz Polska Sp. z o.o., individual donors, donation of Grzegorz Marzec
	We operate 2 Information and Integration Centres in Avdiivka and Bakhmut. We provide local communities with legal aid, psychological support, job advisory services, social support. All these services are also offered by our mobile groups. In Avdiivka we also operate Community Centre. Project implemented with local partner Child Smile.		
Protection and humanitarian assistance to highly vulnerable older people affected by the conflict (project until August 2020)	3,995 PEOPLE incl. 3,000 women	Donetsk and Luhansk regions	OFDA
	Project consists of 5 main components:		
	<ol style="list-style-type: none"> 1. Psychosocial support (individual and in groups) and training sessions for social workers; 2. Multipurpose cash assistance (MCA) that allows the most vulnerable people to purchase essential products; 3. Repairs of sanitary infrastructure in institutions providing services for seniors (toilets in public institutions); 4. Support of small-scale agriculture in order to increase the capacity to grow food in home gardens (teaching better methods of production, distribution of vouchers for seeds and tools); 5. Ensuring food security (distribution of food kits). 		

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Psychosocial services for teenagers, adolescents, parents and caregivers living near the so-called contact line	1,003 TEENAGERS incl. 502 girls and 112 ADULTS incl. 78 women	Donetsk region	UNICEF, individual donors, Futuro Finance
	Together with our team of professionals, we provided psychosocial support for children and youth. Community Initiative Teams organized psychosocial services and activities. Parents and caregivers participated in positive parenting workshop. We conducted 2-day training session in project proposal writing, project management, and organization of social events for teenagers, youth, and their caregivers (12 participants - 2 representatives of each of the 6 CIT + 1 coach). Thanks to the small cash grants provided by PAH, „Safe Spaces“ for local communities were created.		

Photo: Karol Grygoruk, RATS Agency

Svetlana Kravchenko is 62 years old. For two decades she worked in the thermal power plant in Svitlodarsk – city she helped to build, as Svetlana herself says. For 21 years she has been training powerlifting, for two years she was even on the Ukrainian national team. “I train in my apartment. I have a room and a kitchen. The whole apartment is my gym and training space. I’ve made a lot of exercise equipment myself.” When the city was under fire and bombardment in January 2015, Svetlana helped mothers with children and seniors to take shelter in a gym in the school basement. “We spent a couple of weeks there. Without electricity, water, heating and enough food. It was very cold outside. The temperature was as low as -20°C. We didn’t know how long it would last. I was comforting others, administering medicines, encouraging people to move around.” Since PAH established the psychosocial assistance centre in Svitlodarsk, Svetlana has been the right hand of the director. She visits seniors living in the area who often are not able to leave their houses on their own. She helps them with housework, gardening and shopping. “We chat, I try to keep their spirits up. These meetings help me too. I feel responsible for these people.”

SVETLANA KRAVCHENKO, UKRAINE

KENYA

Elisabeth Wamba is 35 years old and is the president of the women's agricultural cooperative in the Makueni district. "I started walking for water when I was 14, at first 2-3 km one way, then more and more, because the river started to dry out. The lack of water was our biggest problem. The land here is fertile, but without water nothing will grow." Elisabeth and other members of her cooperative collected by themselves materials for the construction of the sand dam which was co-financed as part of PAH activities. "It was not easy because there are only women in our group, but we did it. With the dam and well, our lives have changed enormously. Water is now close to everyone. Our crops have been good, and we even have a profit in our bank account. The families here used to be very poor, but now we can sell some of the crops and earn money for our families. Our biggest wish is to build another dam, so we can develop, expand our cultivation, and invest in tools."

In 2019 we provided
aid to 10,204 people

- PAH in Kenya since 2018.
- WE OPERATE IN THE COUNTIES: Machakos, Kitui, Makueni.

In Kenya, we expanded our program of the comprehensive disaster risk reduction and environmentally-friendly job creation. We increased the number of self-help groups and farmers participating in our activities, enabling even more people in the districts of Makueni, Machakos and Kitui to improve the quality of life without negative effects on the environment.

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Livelihood improvement through integrated and environmentally friendly employment development (Module 2 of 2018-2019 project)	5,670 PEOPLE incl. 3,970 women	Machakos, Makueni, Kitui counties	Polish MFA
Livelihood improvement through integrated and environmentally friendly employment development (Module 1 of 2019-2020 project)	4,534 PEOPLE incl. 3,174 women	Machakos, Makueni, Kitui counties	Polish MFA

We provided access to water (water tank and infrastructure to collect water) in 2 schools. We conducted hygiene promotion in schools and local communities. We constructed 4 sand dams and 4 shallow wells. We conducted workshops for farmers in sustainable agriculture and generating more income from farming. We distributed drought resistant seeds and established model fields and pastures. Project implemented with local partner ASDF.

We provided access to water (water tank and infrastructure to collect water) in a school for 456 students and 22 teachers. We conducted hygiene promotion in schools and local communities. We constructed 3 sand dams and 3 shallow wells. We trained farmers in sustainable and environment friendly farming as well as ways to boost employment and income of agricultural co-ops. Project implemented with local partner ASDF.

In 2019 we provided
aid to 61,549 people

- PAH in Yemen since 2019.
- WE OPERATE IN: governorates Aden and Lahj (Yemen), and district Obock (Djibouti).

PAH's first response to the humanitarian crisis in Yemen was providing aid to the Yemeni refugees in the Markazi camp in Djibouti. Our permanent mission in Yemen was established in July 2019 in the city of Aden. We focused on integrated assistance in the water and sanitation as well as health sectors to prevent the spread of infections. We provided the access to safe water, built or repaired latrines as well as water and sewerage systems, conducted hygiene campaigns and provided medical support. We worked with the local communities, health centres and schools. In the primary school in Lahj governorate, located in the hunger-stricken area along the front line, we provided aid to the people who have been facing the consequences of the armed conflict. Our rehabilitation project of the water and sewerage system in Aden was recognized as one of the most advanced interventions by the international NGOs operating in the city. According to the engineers, the new system ought to serve the residents for the next 60 years.

YEMEN

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Integrated health and WASH activities for improving health and WASH system for vulnerable people	58,978 PEOPLE incl. 33,966 women and girls	Aden province	Polish MFA, CARITAS POLSKA, individual donors
		In the health clinic in Imran village, we provided access to medical care for local communities and internally displaced persons - we recruited and trained medical staff, purchased medicines, medical supplies and equipment. We conducted vaccinations for children under 5 years old and women of reproductive age. We renovated the clinic building, repaired sanitary infrastructure, and built medical waste incinerator. We also rehabilitated local sewage system, using high capacity pipes of the largest diameter in Yemen and made of reinforced materials expected to last for 60 years. Project implemented with local partner YFCA.	

YEMEN

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Provision of sufficient and sustainable access to WASH services to the vulnerable people in famine-risk areas	2,499 PEOPLE incl. 1,250 women and girls	Lahj province	individual donors, collection for Yemen in December 2019, Akademia Rozwoju Filantropii
We built 8 school latrines and connected them to sewage system. We installed solar panels for lighting and water pump. We conducted hygiene promotion sessions for children. We provided water tanks for latrines and water trucking. Project implemented with local partner YFCA.			

DJIBOUTI

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Promoting sustainable livelihoods for Yemeni refugees in the Markazi refugee camp and their host community in Djibouti	72 PEOPLE incl. 17 women	Obock district	Club PAH SOS, individual donors, Caritas Polska
We conducted trainings on business management, security and fish preservation. We provided 7 fishing boats, cooling boxes for the fish as well as cash grants to expand businesses and ensure food security and income generation. Two local savings and loans associations were established. Project implemented with local partner LWF.			

Photo: PAH

Mohammed Khaled lives with his family in the district of Altqanea in Aden. The city is severely overcrowded because many Yemenis flee there from areas affected by the military operations. As a result, the water and sewerage system is overloaded, and often becomes clogged causing the sewage to flow out onto the streets. "We couldn't get to our house without putting a path made of stones, because the sewage was everywhere. The stench was unbearable, we didn't open the windows at all, we didn't turn on the air conditioning, and we were afraid of bacteria," Mohammed recalls. Due to the lack of access to clean water, the whole family of Mohammed suffered from various infectious diseases. He was not able to work himself, and the family had to spend a lot of money on medicines. Together with the local partner organization, YFCA, PAH repaired and modernized the sewerage system in the whole district. The main sewer pipe was enlarged with good quality materials to make the system durable and operational. As a result, 50 thousand people in Altqanea now have the modern sewerage network. "My children are healthy and the sewage water is no longer on our streets," Mohammed says happily.

In 2019 we provided
aid to 8400 people

For almost a decade Venezuela has been struggling with the disastrous economic crisis. It has been aggravated by a very unstable political situation. The hyperinflation has led to the bankruptcy of companies, dramatic rise in unemployment, problems with water and electricity supplies, and chronic shortages of food and medicines. Currently, 94 percent of the country's population lives in poverty. Over 10 percent - 3.4 million people - have fled abroad, mainly to neighbouring Colombia. And it was there, in the places where the Venezuelan refugees were arriving as well as on the Colombian-Venezuelan border, that PAH provided emergency humanitarian assistance in 2019. Our main activities included the distribution of water, hot meals, hygiene products and blankets.

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Needs assessment and rapid emergency assistance for Venezuelan refugees in Colombia	8,400 PEOPLE incl. 3,360 women	Norte de Santander and Santander regions (Colombia)	Club PAH SOS, individual donors, collection for Venezuela, 1% income tax return
			We provided necessary medical supplies (medicines, thermometers, bandages, etc.) to the local partner that worked with volunteer doctors. We provided essential hygiene products and distributed bottled water. We provided food (milk, rice, flour, meat, sugar, oil, beans, etc.) and local partners prepared and distributed meals. We covered bills for electricity, gas and rent in the facilities transformed into reception centers for refugees. We distributed blankets and milk bottles for the youngest children. Project implemented with local partner FUNVECUC.

PAJACYK

Photo: Paweł Wyszomirski

Pajacyk is our program of hot meals for children and youth in Poland. It is aimed at young people who are at risk of social alienation due to poverty, family situation, disability. Our goal is to provide every child in need with hot and healthy meal that not only satisfies hunger but also delivers necessary nutrients. Pajacyk has three versions: the primary program for schools and schools dayrooms, vacation program for day support facilities, and grant program for NGOs (called Pajacykowa Sieć Pomocowa) that conduct further distribution of meals among children they work with.

TYPE OF ACTIVITY	AID PROVIDED TO	LOCATION	SOURCE OF FINANCING
Pajacyk: school year 2018/2019 (Spring Semester 2019)	We provided app. 97,518 meals for 962 children in 82 schools.	entire country	Świąteczny Stół Pajacyka, Mr. And Mrs. Szafranski (individual donors + JOP)
Pajacyk: school year 2019/2020 (Fall Semester 2019)	We provided app. 75,384 meals for 1032 children in 66 schools.	entire country	Auchan, Sodexo, Wydawnictwo Altenberg, Fris Style Myślenia, Santander
Pajacyk Summer Edition 2019	35 organizations participated in the summer edition of the program. We provided 44,807 meals for 1322 children.	entire country	Sodexo; DHL;
Pajacykowa Sieć Pomocowa (Pajacyk Help Network) 2018/2019 (Spring Semester 2019)	8 partnership organizations, in the framework of Pajacyk, provided 92,846 meals for 682 children from 48 educational and social facilities.	łódzkie, pomorskie, kujawsko-pomorskie, warmińsko-mazurskie, świętokrzyskie, podlaskie, lubuskie, lubelskie, śląskie voivodeships	DHL, NCAB, BP, Auchan, Santander Bank (at the time under the name BZWBK), individual donors
Pajacykowa Sieć Pomocowa (Pajacyk Help Network) 2019/2020 (Fall Semester 2019)	10 partnership organizations, in the framework of Pajacyk, provided 105,088 meals for 672 children in 57 educational and social facilities.	łódzkie, pomorskie, kujawsko-pomorskie, warmińsko-mazurskie, świętokrzyskie, podlaskie, lubuskie, lubelskie, śląskie voivodeships	NCAB, Wydawnictwo Altenberg, Mr. and Mrs. Szafranski (individual donors + JOP)

EDUCATION

The mission of Polish Humanitarian Action is not only providing humanitarian assistance but also educating society on the global social, political and economic inequalities. We develop and implement educational programs for children and youth, we cooperate with schools and libraries throughout Poland. In 2019, in Toruń we organized the Festival of Global Education Games, which brought together many people interested in using games to explain global interdependencies. For the teachers with experience in global education we held the third edition of our intensive training at the Summer PAH Academy. As every year, our educational materials were used in hundreds of Polish schools.

"GODZINY WYCHOWAWCZE ZE ŚWIATEM"

"General Educational Classes with the World" is our nationwide educational program for schools. Based on our publications „A Ty, czujesz klimat?” (“Do You Feel the Climate?”), „Bazgrolnik. Świat i ja” (“Scribbler. The World and I”) and supporting materials, the program introduces global topics during general educational classes.

NUMBER OF RECIPIENTS
1355 educators

SOURCE OF FINANCING
individual donations

"NIOSE POMOC"

"I am helping" is our regular nationwide educational campaign, comprising of five different initiatives: Zróbmy Pokój (Let's Make Peace), Studnia dla Południa (Water Well for the South), Świat bez Głodu (World without Hunger), Zamiast Kwiatka Niosę Pomoc (Instead of Flower, I'm Carrying Help), Akcja (Krytyczna) Edukacja (Action [Critical] Education). Participating educational institutions conduct classes based on the materials provided by PAH as well as carry out awareness-raising activities and organize fundraising for humanitarian aid. A series of webinars complements the program.

LICZBA ODBIORCÓW
886 educational institutions
35,093 students

SOURCE OF FINANCING

"WIEM I DZIAŁAM"

"I know and I act" is our new nationwide educational program for schools. It consists of the three-stage cycle of classes that focuses on the subject of humanitarian aid and combines education with activism.

NUMBER OF RECIPIENTS
278 schools

SOURCE OF FINANCING
individual donations

"FESTIWAL GIER EDUKACJI GLOBALNEJ"

"Festival of Global Education Games" is a two-day event which we organized for the first time in 2019 in Toruń. During the festival, educators learned how to use games to explain global interdependencies. We also launched the rental service of the games developed by PAH, which enabled schools across Poland to hold 54 classes utilizing our board games and educational escape room. After the festival, a special set of films and posters was created as a support material for conducting classes using games.

NUMBER OF RECIPIENTS
118 educators
675 participants of the escape room

SOURCE OF FINANCING
Polish Ministry of Foreign Affairs

"NARZĘDZIOWNIA"

"Toolroom" is a two-day meeting which we organized for the trainers planning new educational materials. The result of our joint work are poster publications: „Zmień perspektywę” (“Chang Perspective”), „Mądra pomoc” (“Smart Aid”), „Wojna i pokój” (“War and peace”), and the toolkit „Pomocnik PAH” (“PAH helper”) – a handbook on dealing with difficult situations in the work of global educators.

NUMBER OF RECIPIENTS
12 trainers

SOURCE OF FINANCING
Polish Ministry of Foreign Affairs

HUMANITARIAN SCHOOL

“Humanitarian School” is our annual program on global education and the importance of critical thinking. It includes, among others, trainings for teachers and students, school workshops, Reflective Online Course, and lessons and actions organized by schools. The program is dedicated to teachers and students from schools throughout Poland. Indirectly – through the lessons and events organized in schools – the program reached 2,141 recipients.

NUMBER OF RECIPIENTS

420 students and 56 teachers

SOURCE OF FINANCING

individual donations

GLOBAL EDUCATION

Global education program at the Positive Elementary School in Gdańsk was implemented together with the Positive Initiatives organization. We regularly trained and supported the teaching staff, and participated in the classes for students, family picnic and important school events. We co-created the extracurricular activities program, established and ran the Teachers’ Club, developed educational materials (e.g. lesson plans and textbook inserts) which served as a basis for classes and school actions.

NUMBER OF RECIPIENTS

1000 students and 100 teachers

SOURCE OF FINANCING

partner’s resources (Positive Initiatives)

“GLOBALNIE W BIBLIOTEKACH”

„Globalnie w Bibliotekach. Edycja 3” (“Globally in Libraries. Edition 3”) is a nationwide program that we implemented in partnership with the Information Society Development Foundation. Using our materials on the access to water in the world, libraries organized open meetings, workshops and games.

NUMBER OF RECIPIENTS

97 libraries, 1,269 people

SOURCE OF FINANCING

individual donations

GLEN

GLEN (Global Learning and Education Network) program is an annual educational cycle for people interested in global education. We selected and prepared the program participants from Poland, who took part in two international trainings, three-month long internships in countries of the global South (Ghana, Uganda, India, Kenya, Nepal, Gambia), and the concluding seminar. After their return, the participants of the program carry out voluntary educational activities with PAH in Poland.

GLEN PARTNERS

ASA-Programm (Germany), Engagement Global gGmbH (Germany), INEX – Association for Voluntary Activities (Czech Republic), Hungarian Volunteer Sending Foundation (Hungary), Zavod Voluntariat (Slovenia), Pagalbe National NGO Platform (Lithuania), Le Centre Régional de Recherche et d’Education pour un Développement Intégré – CREDI-ONG (Benin)

NUMBER OF RECIPIENTS

7 people

SOURCE OF FINANCING

individual donations
and partner contributions

SOCIAL CAMPAIGNS

An important part of PAH activities in Poland is the implementation of society oriented initiatives. We want to share our knowledge of humanitarian assistance and mobilize Polish women and men to actively support people who suffer as a result of wars and natural disasters. These activities not only help us carry out the main mission of our organization, but are also an opportunity to build relations with people who support us or are interested in our work. We believe that, as a large organization operating around the world, we can build together with Polish society a new, empathic culture of helping, based on the commitment and deep understanding of the problems of the people we aid.

Social campaigns contribute to building the local awareness of global issues. We are convinced that one should not turn a blind eye to the challenges of the today's world, which is why we want to face them together with Polish society in an innovative and unique way.

Photo: PAH

SNAPSHOTS FROM THE BORDERS – CAPITAL EVENT WARSAW

As a part of the international Snapshots from the Borders campaign, which covered all 28 capitals of the European Union, we organized film screenings, discussions and exhibitions on migration issues in Warsaw and Krakow. The events were accompanied by the collection of signatures under the petition to establish the 3rd of October as the European Day of Memory and Welcome. It is a symbolic date, reminiscent of the tragedy in 2013 when 368 men, women and children drowned off the coast of the Italian island of Lampedusa. The event included also the creation of the mural “Whoever you are, stay human!” and the advertising campaign for digital platforms and in weekly opinion magazines.

SOURCE OF FINANCING

AMREF, project co-funded by the European Union (EuropeAid DEAR)

WORLD HUMANITARIAN DAY

We organized the all-day discussion in Warsaw on how to document, speak and write about humanitarian emergencies. We talked about the language and image boundaries that should not be crossed and the ways to show the images of people affected by humanitarian crises. Among the participants of the panels were representatives of the media, humanitarian organizations, artists and activists.

#BIEGAMDOBRZE

#BiegamDobrze is a charity program accompanying the races organized by the Warsaw Marathon and Half Marathon which gives the opportunity to run in support of, among others, PAH and collect funds for providing access to water. We constantly animate our community of runners, and during the races we support them by cheering for them on the run route. Everyone, not only marathon runners, can join our charity running! The important thing is motivation and willingness to engage family and friends in supporting your fundraising!

PAJACYK’S CHRISTMAS TABLE

Pajacyk’s Christmas Table – is a one-day nationwide charity event addressed to restaurateurs and their customers. On a selected day at the beginning of December, the participating restaurants donate 10% of their profits to our hot meals for children program in Poland – Pajacyk.

“WOJNA. MÓJ DOM”

“War. My home” – is our social campaign drawing attention to the fate of people who have been forced to leave their homes by armed conflicts or who for years have been living in the shadow of never-ending wars. For the project, a special video spot was created as well as numerous publications on our social channels. This was supported by the wide-ranging campaign on the Internet and in public spaces.

Photo: RATS Agency

POMAGAMY.PL

Pomagamy.pl – is PAH’s crowdfunding platform that allows anyone to set up their own fundraiser to help the people we support with our activities. Our platform makes it easy to organize a collection on any occasion, e.g. birthdays, weddings, anniversaries, etc., and choose its financial goal. It is a great way to celebrate the important moments in life and act together with the close ones to help the people in need.

1% CAMPAIGN

1% campaign – to encourage the Polish public to donate 1% of their personal income tax to PAH’s aid activities, we conducted the dedicated information campaign which included digital marketing, promotion in social media and on our website, direct mailing to businesses and individuals. We would like to thank everyone who donates their 1% of income tax to our assistance!

KLUB PAH SOS

The PAH’s SOS Club – is our long-term aid programme. As a Club Member, you belong to the community that wants to act in order to stay ahead of a crisis. Everyone who joins the PAH’s SOS Club commits to make regular donations to our emergency assistance fund. What does it mean? In the situation when an unexpected humanitarian crisis occurs, the donations made by the Club Members enable us to immediately start our activities and provide assistance where it is urgently needed. This is an invaluable support in the situations when every day matters. We want to thank all the Club Members for their trust!

Photo: Rafal Grzelewski, PAH

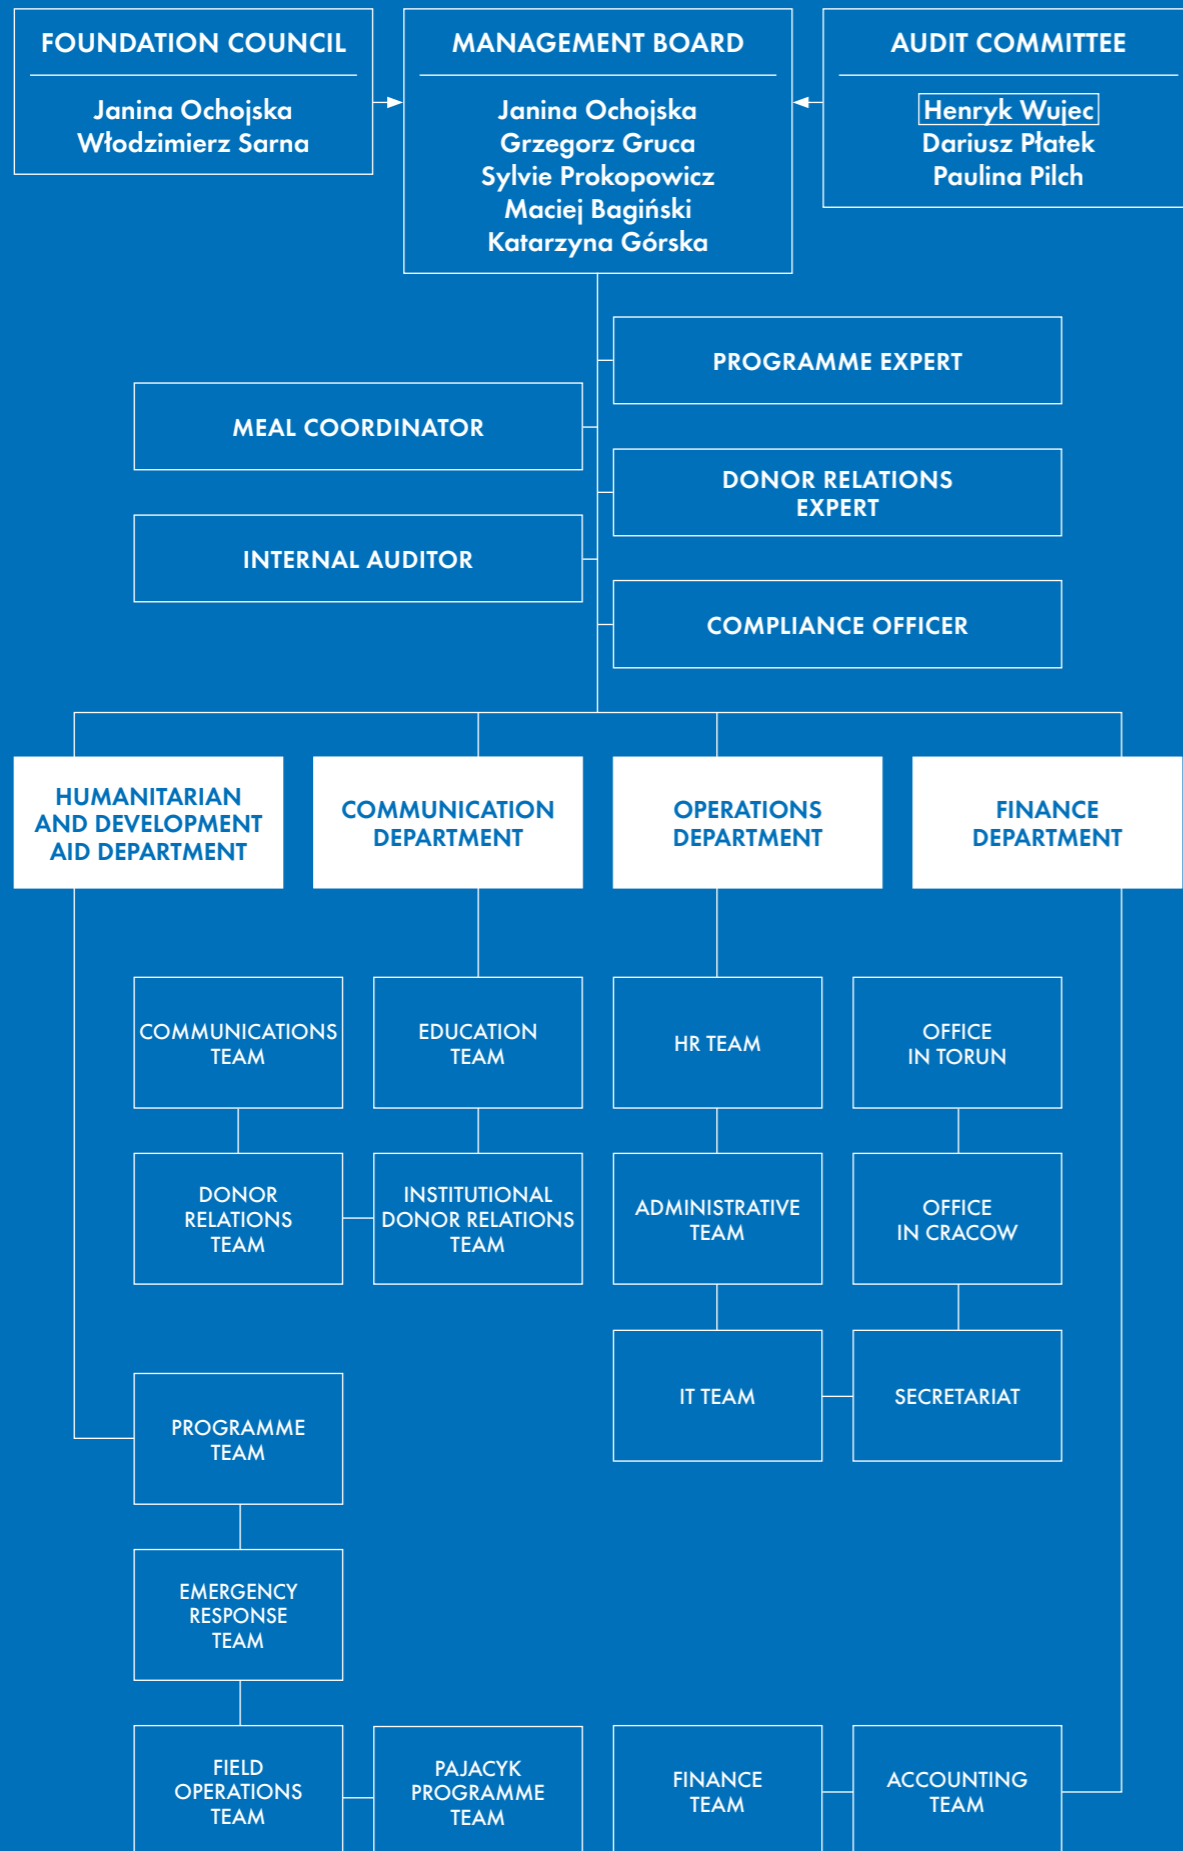

Photo: Robert Gajda, FotoPressArt

Bartosz Banasik regularly runs for PAH. His specialty is running in various costumes. This year, he promised to wear the costume of... a runaway bride. He set the goal of his fundraising at 100 PLN for every 1 km of the marathon, that is 4,219 PLN in total, but collected 6,312 PLN! As he said himself: “I want my run to be more than a race. I support PAH because it helps the most deprived ones, those who often are forgotten, regardless of their nationality, religion or skin colour. It helps a human being. Not in spectacular spurts, but every day, on a regular basis.”

BARTOSZ BANASIK, POLAND

ORGANIZATIONAL STRUCTURE

OUR TEAM

Polish Humanitarian Action is a team of deeply committed people that work together to provide the best possible humanitarian and development assistance. We employ professionals and experts in their fields who, in addition to knowledge and experience, have sensitivity and passion for helping others. Humanitarian workers are not exactly the stereotypical image that we know from films – they include, among others, accountants, logisticians, sociologists, engineers, IT specialists. In the case of PAH, they are not only Polish, but also people from all over the world, and above all, local employees coming from the countries where we operate. Equal employment opportunities and empowerment of local communities in the places where we work, is of great importance to us. This is why, at the field missions of our organization out of 172 employees as many as 161 are local staff. They best understand the cultural context and needs of their communities.

INSPECTIONS AND AUDITS

PAH regularly undergoes audits and inspections. 2019 was evaluated in an independent annual audit of financial statements (performed by law firm Moore & Stephens). Throughout the year other independent auditors audited how funds donated by institutional donors were spent and/or the application of internal control system at different levels of the foundation's operations (regarding the following donors - GIZ, KPRM, MSZ, NCA, OCHA, UNICEF, UNDP). NIK (The Supreme Chamber of Control) audited allocation of funds from grants received by KPRM (Chancellery of the Prime Minister) and MSZ (Polish Ministry of Foreign Affairs). Also, in 2019 we began preparation for the so-called Ex-ante Assessment that precedes signing of the new framework agreement with ECHO (European Commission) in December 2020.
